Solid Track Record

Assurity Life is committed to honoring our obligations to our policyholders now and in the future. Our company utilizes conservative investment practices and a sound, disciplined management approach. Our investment operations are guided by a focus on sustaining a strong financial position while limiting credit and interest rate risk. Assurity's emphasis is on building and maintaining a high quality, well-diversified investment portfolio, with proper matching of assets and liabilities.

In our business, lasting success depends on investing over the long term. Assurity's investment portfolio consists primarily of investment-grade bonds and commercial mortgage loans. Our team of investment professionals constantly monitors market performance to ensure the highest possible yield for our accounts without sacrificing quality.

This yield serves to support the high performance of our company and our products.

Longtime Stability

Assurity's origins are rooted in a century-long legacy of providing enduring security to policyholders. Our core values today are the same as they were a century ago — protecting individuals and families, valuing community and exercising responsibility and fairness in all dealings.

From the beginning, we've designed and marketed products for middle America. Over the decades, we've created and honed the products and financial solutions that our customers want and need. Assurity offers a selection of well-performing products with strong guarantees and features that cover the risks of death, disability, serious illness and the possibility of outliving assets.

Although the benefits we pay are measured in dollars and cents, they translate into the financial security, peace of mind and dignity of our policyholders. We are backed by a rich, solid tradition which will advance us well into the future.

Our Commitment

The plans Assurity Life offers are distinctive, the elements they protect against are universal, and the benefits they provide are essential to the well-being of our policyholders. To serve diverse consumer needs, we have developed a unique blend of broad-based, complementary distribution systems. Assurity serves customers across the nation, offering life and health insurance plans, annuities, employee benefits and retirement plans.

For clients who have more complex financial needs or who simply prefer one-to-one consultation, our products are available through professionals who are part of our extensive Brokerage and General Agency distribution systems. The Assurity at Work® and Group Divisions' products are made available to individuals at their places of employment. The Assurity Direct Division offers insurance products directly to consumers through the mail. We also provide small-business owners an array of plans and services, including specialty "niche" insurance products. Retirement plan administration and investment management is provided through Pine Lake Advisors Inc., a subsidiary of Assurity Life.
